PROFILE SUMMARY

Technology executive with 15+ years of experience building and scaling engineering organizations, modernizing enterprise platforms and delivering AI-enabled solutions across data-intensive and increasingly regulated industries. I combine executive leadership with hands-on architectural expertise, partnering with business and technology leaders to translate strategy into scalable platforms, high-performing engineering teams and measurable business outcomes.

EXECUTIVE VALUE PROPOSITION

- Build and scale engineering organizations from early-stage teams to multi-disciplinary functions
- Translate business strategy into technology roadmaps, operating models and delivery plans
- Lead AI, data and platform modernization across enterprise and cloud-native environments
- Advise founders, executives and clients on technical strategy, risk, scalability and investment priorities

SELECTED ACHIEVEMENTS

- Scaled engineering organizations from **2 to 20+ engineers** across distributed teams
- Increased release velocity by **40%** and reduced incidents by **30%**
- Delivered AI-enabled workflows improving productivity by **200%+**
- Built platforms supporting **millions of users** and **900+ retail locations**
- Introduced RAG, AI validation and autonomous workflows into enterprise products

SELECTED LEADERSHIP & ENGINEERING EXPERIENCE

09/2026 – Present
Berlin, Germany

Chief Technology Officer, Dado Software GmbH

- Own company-wide technology strategy, engineering organization and platform roadmap.
- Partner with executive leadership on business strategy, product direction and technology investment.
- Lead engineering, architecture, AI strategy and technical governance across the organization.
- Represent technology in customer, partner and executive engagements.

03/2026 – 08/2026
Berlin, Germany

Head of Engineering, Dado Software GmbH

- Built and led a globally distributed engineering organization across Europe, Asia and the US.
- Directed modernization initiatives across GCP and React.
- Introduced autonomous AI workflows improving productivity by 200%+ and user confidence by 70%.
- Established engineering operating models, delivery practices and architectural standards.

2025 – Present
UK, Remote

Co-Founder & CTO, Aim Higher Innovations Ltd

Co-founded a technology venture focused on building AI-enabled infrastructure for trusted decision-making in regulated industries.

- Define the long-term product vision, technology strategy and architecture for a cloud-native RegTech platform.
- Lead platform design spanning policy-driven authorization, AI-assisted decision support, auditability and compliance automation.
- Translate complex regulatory and operational requirements into scalable platform capabilities.
- Establish engineering standards, architecture principles and product delivery strategy from inception.
- Engage with prospective customers, partners and advisors to validate product direction and market needs.

07/2023 – 02/2026
Munich, Germany

Head of Engineering, Data & AI, Emnos GmbH

- Led 20+ software and data engineers across multiple enterprise analytics products.
- Increased release velocity by 40% and reduced incidents by 30% through platform modernization, CI/CD and observability.
- Introduced AI validation and RAG-based insight delivery, reducing analytics turnaround time by 50%.
- Aligned engineering strategy with executive priorities, customer commitments and enterprise data objectives.

10/2025 – 06/2026
Hamburg, Germany

Fractional CTO, Precision Labs

- Advise founders and senior stakeholders on product strategy, architecture, delivery models and technical investment.
- Conduct architecture reviews and define engineering standards across multiple teams and products.
- Act as the primary client-facing technology leader, translating technical risk and trade-offs into business decisions.
- Support hiring, team design and the transition from MVPs to production-ready platforms.

03/2023 – 02/2024
Hamburg, Germany

Fractional CTO, webeet.io

- Led technology strategy and architecture across startup and client engagements.
- Advised founders on product delivery, scalability, technical risk and team structure.
- Mentored 200+ engineers and trainees while establishing production-oriented delivery practices.

01/2022 – Present
Berlin, Germany

Education Mentor, Masterschool Ltd

- Mentor professionals in data engineering, cybersecurity and full-stack development.
- Provide architecture guidance, technical coaching and bilingual interview preparation.

06/2021 – 06/2023
Hamburg, Germany

Senior Software Engineer, Fielmann AG

- Led development of a greenfield platform centralizing orders and operational data across more than 900 retail locations.
- Architected unified APIs and data models supporting multiple business channels and downstream teams.
- Managed delivery KPIs and improved onboarding time by 35% through structured mentoring and documentation.

11/2019 – 05/2021
Hamburg, Germany

Senior Software Engineer, InnoGames GmbH

- Led modernization work on platforms serving more than 5 million active users.
- Reduced downtime by 25% through scalability, resilience and operational improvements.
- Introduced automated testing and CI/CD practices, reducing release-related issues by 40%.

06/2014 – 01/2017
London, UK

Head of Engineering, Myflo Ltd

- Built and scaled the engineering organization from 2 to 21 people.
- Established delivery processes and CI/CD, reducing lead times by 50%.
- Led platform modernization, hiring and engineering capability development.

EXECUTIVE LEADERSHIP & ADVISORY AREAS

- Technology Strategy & Strategic Roadmapping
- Engineering Organization Design & Scaling
- Executive Stakeholder and Client Communication
- AI Transformation & Enterprise Adoption

SKILLS

- **Leadership:** Technology strategy, engineering organization design, fractional CTO advisory, hiring, delivery governance, executive communication
- **Domains:** AI, data platforms, RegTech, security, authorization, auditability, enterprise systems

- Fractional CTO & Founder Advisory
- Platform Architecture & Modernization
- Regulated Systems, Security & Technical Governance
- Product and Engineering Operating Models
- Delivery Governance, Risk & Reliability
- Hiring, Leadership Development & Team Structuring
- Technical Due Diligence & Architecture Reviews
- Data Platforms, Cloud Infrastructure & Automation
- Change Leadership & Organizational Transformation
- Cross-Functional Product, Data and Engineering Leadership

EDUCATION & CERTIFICATIONS

Education

- PhD Automatic Control and Informatics - Tomas Bata University (Czech Republic)
- MSc Information Security - University of Glasgow (UK)
- MSc Cyber Law & Information Security - IIIT Allahabad (India)
- BTech Computer Science & Technology - IIIT Noida (India)

Certifications Project Management, CSPO, CSM, CEH

LANGUAGES

English (Fluent) • **German** (C1) • **Hindi** (Native)

- **Core Technologies:** GCP, AWS, Azure, Kubernetes, Kotlin, Java, Python, Node.js, React, PostgreSQL, BigQuery, Redis, Elasticsearch, RAG and agentic AI
