PROFILE SUMMARY

With 15+ years of experience in software engineering and technology leadership, I combine strategic vision with hands-on expertise to drive digital transformation and deliver scalable, high-quality solutions. As Head of Development, I have led distributed, cross-functional teams while remaining deeply involved in architecture, system design, and delivery processes. I specialize in defining technology roadmaps, optimizing engineering practices, and ensuring execution excellence.

Passionate about mentoring and coaching, I build high-performing teams and empower leaders to innovate, collaborate, and deliver sustainable business value.

EDUCATION & CERTIFICATIONS

Bachelor of Technology (Computer Science & Technology),

Jaypee Institute of Information Technology, India
05/2017 – 05/2021

Master of Science (Information Security),

University of Glasgow, UK
09/2013 – 10/2014

Master of Science (Cyber Law & Information Security),

Indian Institute of Information Technology, India
06/2011 – 05/2013

Project Management Certification,

Haufe Akademie
2023

Certified Scrum Product Owner (CSPO),

Scrum Alliance
2019

Certified Scrum Master (CSM), Scrum Alliance

2019

Certified Ethical Hacker (CEH), EC Council

2003

SELECTED PROFESSIONAL EXPERIENCE

Head of Development, Data & AI, Emnos GmbH

07/2023 – Present | Munich, Germany

- Lead a remote-first engineering organisation of 20+ developers and data engineers, defining the technical strategy and implementing scalable, data-driven solutions across multiple product lines.
- Delivered a 40% improvement in release velocity and 30% reduction in operational incidents through CI/CD standardization and observability enhancements.
- Introduced AI-assisted data validation pipelines and RAG-based insights delivery, improving analytics turnaround by 50%.
- Partnered with executive leadership to align technology strategy with business OKRs and improve data quality KPIs across departments.

Head of Engineering, Myflo Ltd

06/2014 – 01/2017 | London, UK

- Built and scaled the technology department from 2 to 21 members across London and Cardiff.
- Delivered 25+ digital products for clients in fashion and media, achieving a 95% client satisfaction rate.
- Introduced agile practices and CI/CD pipelines, reducing delivery lead time by 50%.

Senior Software Engineer, Fielmann AG

06/2021 – 06/2023 | Hamburg, Germany

- Led cross-functional teams on a greenfield project centralizing customer orders and operational data across multiple sales channels, impacting over 900 retail stores.
- Designed and implemented a central platform acting as a single source of truth, consolidating and standardizing data from multiple internal and external systems.
- Enabled all downstream services and product teams to work faster and more reliably by providing unified APIs and standardized data schemas.
- Managed project budgets and KPIs, ensuring 100% on-time delivery of core releases.

TECHNICAL EXPERTISE

Languages & Frameworks

Kotlin, Java, PHP, Python, C/C++, C#, Haskell, Rust, Ruby, Shell, React, Node.js, TypeScript, Micronaut, Spring Boot, Django, FastAPI, .NET, Unity.

Databases & Data Engineering

PostgreSQL, MySQL, MongoDB, DynamoDB, BigQuery, Elasticsearch, Logstash, Airflow, Dataform, Redis, Hazelcast, Memcached, Neo4j, HBase.

Cloud & DevOps

AWS, GCP, Azure, Docker, Kubernetes, Terraform, Pulumi, Helm, GitHub Actions, CircleCI, GitLab CI/CD.

AI & Machine Learning

MCP, UTCP, Gemini, OpenAI, Claude, Hugging Face, Vertex AI, PrivateGPT, FAISS, Pinecone, RAG, PyTorch, Transformers, Agentic AI, Autonomous Agents, Context Grounding

LEADERSHIP & STRATEGIC SKILLS

Technology Vision & Strategic Roadmapping

AI-Driven Transformation

Digital Transformation & Innovation

Team Leadership, Mentoring & Recruitment

Process Excellence & Agile Delivery

Stakeholder & Executive Communication

Change Leadership & Culture Building

Data-Driven Decision Making

Cross-Functional Leadership

Languages

English (Fluent) • **German** (C1) • **Hindi** (Native)

- Mentored junior engineers and built onboarding frameworks that reduced ramp-up time by 35%.

Senior Software Engineer, InnoGames GmbH

11/2019 – 05/2021 | Hamburg, Germany

- Directed the modernization of a major web and mobile game serving over 5 million active players.
- Improved backend stability and scalability, leading to a 25% reduction in downtime and 20% faster deployment cycles.
- Introduced automated testing and build pipelines, cutting release errors by 40%.

Senior Software Engineer,

DEPT Design & Technology GmbH

06/2018 – 10/2019 | Hamburg, Germany

- Delivered enterprise-grade B2B & B2C e-commerce platforms, increasing customer conversion rates by up to 18%.
- Managed technical delivery for multi-million-euro digital transformation projects in Agile environments.
- Supported recruitment, onboarding, and skill development for a 15-member engineering team.

Education Mentor, Masterschool Ltd

01/2022 – Present | Berlin, Germany

- Mentor cohorts of 100+ students in data engineering, cybersecurity, and full-stack web development.
- Increased job placement rate by 30% through project-based learning, personalized guidance, and bilingual (EN/DE) interview coaching.

Software Engineer, Bigpoint GmbH

02/2017 – 05/2018 | Hamburg, Germany

- Enhanced infrastructure performance through database optimization and PHP upgrades, improving query efficiency by 35%.
- Migrated game services to AWS and Docker-based deployments, reducing deployment times from 5 to 10 minutes.
- Collaborated across backend and central services teams to strengthen security and CI/CD reliability.
